

BendPlas Max

97 x 25 mm M830

The BendPlas Max from RICHRFID is an adhesive, flexible, smart RFID label, designed specifically to identify, locate, and manage physical assets automatically. It enables fast, contactless scanning of multiple items at once often from several meters away without requiring a line of sight, making it far more efficient than traditional barcodes.

Featuring a specially formulated strong adhesive for secure asset attachment and a material resistant to moisture, common chemicals, and water, the label also allows customization with text, logos, barcodes, QR codes, Data Matrix codes, etc., for visual identification.

By enabling accurate, real-time visibility without manual counts, it reduces losses, optimizes utilization, slashes labor costs, and provides data for smarter business decisions. The key to success is selecting the right label for your specific assets and environment, and integrating the data into your management systems.

Applications

Non-metal Asset Management: tables, chairs, cabinets, sofas, documents, archives, etc.

Overview

Frequency Band

UHF 860-960 MHz

Chip Type

Impinj M830

Dimensions

97 x 25 mm / 3.82 x 0.984 in

Air Interface Protocol

ISO/IEC 18000-63 Type C

Model	RC5801
RFID Features	
Frequency	860-960 MHz
Application	Non metal
Chip Type	Impinj M830
Memory	User - N/A; EPC - 128 bits; TID - 96 bits
Data Storage	> 10 years
Re-write	100,000 times
Physical Features	
Dimension	97 x 25 mm / 3.82 x 0.984 in
Material	PET
Adhesive	Double-sided tape
Operating Temperature	-40°C to 85°C / -40°F to 185°F
Storage Condition	20±5°C, 50±10% RH, Store away from sunlight
Other Features	
Installation	Adhesive on clean & dry surface
Customization	Printing, Encoding, Designing, etc.
Package	2,500 pcs / roll, 4 rolls / box

Read Range(2W ERP)

Radiation Pattern

PS: The performance is theoretical values in the lab and the actual effect depends on the specific applications.
